Crafting fine cabinetry for three generations

When it comes to beauty and practicality, the solution is Apple Valley's Custom Wood Collection. Three generations of master craftsmanship and woodworking skill has brought a true expression of excellence to this line of kitchen cabinetry. We bring an old saying to life—the beauty is in the wood, but its beauty and character are used to full advantage only with great skill. Seasoned craftsmen build to exacting standards using a mastery of techniques such as hardwood doweled joints. Strength, durability and artistry all work in collaboration to provide the evidence in your kitchen that you have a discerning eye in taste and lifestyle. Apple Valley offers 40 styles with an expansive palette of rich transparent and semi-opaque stains. For convenience and practicality we provide a full complement of accessories and storage components to complete the perfect custom kitchen, each made with our exclusive “*Tuff-Core*” Construction. Apple Valley's all-doweled 3/4" cabinetry construction is premium quality. Quality shelving provides extraordinary resistance to twisting, warping and cupping. It's simply the state-of-the-industry and only available from Apple Valley. See and experience the high standard of custom kitchens waiting to greet you in any participating Apple Valley Woodworks dealer showroom. You'll find it to be an idea center that will engage and exceed your expectations for a fine kitchen.
